

WINES BY THE GLASS

All of our wines served by the glass are chosen to be enjoyed with the dishes on our menus, if you would like any pairing advice we will be happy to share our ideas with you.

Wine preservation

It is important that the wine arrives at your table in top condition and as the wine maker would wish, to help us achieve this we have invested in both a Verre du Vin Vacum system which keeps opened wine in great condition and is the perfect tool for fast moving wines. We also use the Corovin Sytem  which uses a needle to pierce the cork and draw the wine out using the pressure of Argon gas, once the needle is removed its like the wine was never opened! This ingenious system allows us to offer you some fine wines by the glass to compliment your dining experience.
